

SUMMER ASSOCIATE PROGRAM

Make an Impact on Day One!

OUR FIRM PLACES ENOURMOUS VALUE ON OUR SUMMER ASSOCIATES

Pryor Cashman's summer program is highly selective and thoughtfully designed to ensure a rewarding and realistic snapshot of life as an associate at the firm. Summer associates are an integral part of the firm's ecosystem from their first day at our offices, forming connections with our attorneys through planned social events and informal lunches over the course of the summer. All of our summer associates can expect substantive work responsibilities and practical experience that provide legal training in as many practice groups as they are interested in exploring.

Alexandra Peterson
Georgetown University Law Center

"On my very first day as a summer associate, I met with the partners on my assigned case and was asked, "How do you think we should approach this issue?" The level of hands-on experience at Pryor Cashman is second to none, with junior associates leading client meetings, handling depositions, and drafting full briefs while also enjoying a true work-life balance."

Jacob Orgel
George Washington University Law School

"I am regularly included in conversations regarding high-level litigation strategy, and I am welcomed in the room where important decisions are made. I can confidently say that Pryor Cashman has created a special associate experience where young attorneys can receive casework tailored to their particular interests."

Helen (Nellie) Hunter
Columbia University School of Law

“In my first two years here, I have drafted full briefs, led client meetings, delivered oral argument in state and federal court, and actively participated in mediations. The depth of experience I have enjoyed at Pryor is unparalleled by my peers at Big Law firms.”

Lazar Sterling-Jackson
New York University School of Law

“Even as a new hire coming from Big Law, I have already been trusted to manage significant portions of cases (including some where I effectively act as the lead attorney) and strategize directly with clients. I feel supported as an attorney and, more importantly, as a person.”
